### Undercover Investigations

**June 1, 2023**

**\$85**

Undercover investigations require unique skills and safety considerations that are not taught to the average Law Enforcement Officer. This training teaches Officers the entire undercover process from organizing a safe operation to courtroom testimony.

In this course, Officers will learn how to:

- Effectively organize safe undercover and controlled drug buys
- Control situations while maintaining an undercover identity
- Safely plan and execute search warrants and buy busts
- Maximize the productivity of confidential informants
- Turn minor arrests into major drug seizures
- Properly document undercover actions in reports
- Testify effectively in court
- Preserve physical and mental well-being

**Equipment needed:** Note taking materials.

### Surveillance & Team Tactics

**June 2, 2023**

**\$85**

Undercover investigations are not one-person assignments. This class focuses on team tactics and vehicle surveillance for covert operations.

This training teaches effective covert surveillance techniques, common surveillance mistakes to avoid, safety considerations, covert intelligence gathering and how to plan for the unexpected. The class also includes live training scenarios on the road so you can practice techniques learned in the classroom.

**Equipment needed:** Undercover vehicle or unmarked squad. Driving exercises will have two officers per vehicle. Officers from the same department may share a vehicle. Your personal vehicle will work, but you will be driving it for exercises.

***Attend all four Undercover Academy classes for a certificate of completion!***
