Undercover Tactical Operations

June 15, 2023

\$100

This training focuses on the most utilized tactics of undercover units.

- Buy Busts
- Vehicle Take Downs
- Search Warrants
- Room Clearing

This hands-on academy class will teach Law Enforcement Officers how to determine proper force options, plan, safely implement and assess risk for different types of tactical operations. Additional topics include avoiding blue on blue shootings, arrest team areas of responsibility and transitioning from arrest team to investigative team.

Students will plan and perform numerous tactical maneuvers in class.

Equipment needed: Empty duty belt, body armor and undercover vehicle or unmarked squad. Your personal vehicle will work, but you will be driving it for exercises.

Undercover Survival Tactics

June 16, 2023

\$100

The survival tactics taught in this class are geared towards the specific needs of Law Enforcement Officers working undercover.

Students will learn defensive tactics designed for the unique situations they may face in the confines of a vehicle or other close quarters encounters.

This class includes firearms training where students learn how to overcome the challenges of utilizing concealed weapons during covert operations. Students will acquire skills to enhance their ability to employ unconventional firearms on the street.

Equipment needed: Body armor, undercover handgun, holster, 200 rounds of ammunition, and eye and hearing protection.

Complete all four Undercover Academy classes for a certificate of completion!
